CARRANZA CRUX OF SITUATION

Upon General's Message Depends Hope of Bringing Order Out of Mexican Chaos.

AGENTS CALL LIND

Mediators Anxiously Awaiting Outcome, Continue Work on Details of Peace Plan.

Washington, D. C., June 4.—Carranza loomed today as the crux in the mediation situation. Upon his message to the South American envoys hung the immediate scope of diplomatic endeavor to bring order out of war's chaos in the southern republic. The note was expected definitely to determine whether mediation were to be confined to the dispute between Huerta and the United States, or to include the entire problem of Mexico's pacification with the constitutionalists represented at the Niagara conference. Carranza at Durango was in telegraphic communication with his agents here until late in the night. They transmitted to him the note of the mediators which had been written in reply to his message expressing "astonishment" that the Niagara proceedings had been started without constitutionalist participation. It was believed Carranza's answer would not be delayed. It was expected to reach here today, but there were indications that it would not be made public until after it had reached the mediators through Rafael Zubaran, constitutionalist minister of the interior, in charge of the Washington agency.

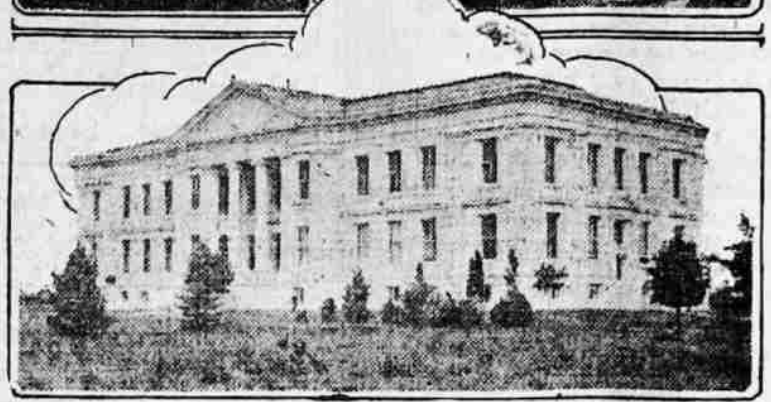

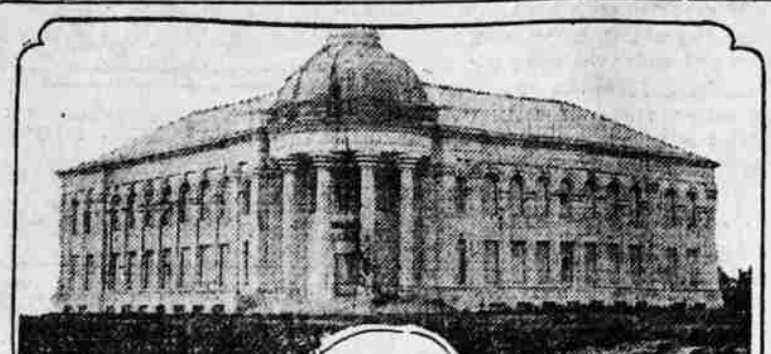

John Lind Called.

The constitutionalist agents declined to give out the contents of the note from the mediators, and they would not reveal what took place in exchanges with their chief. Their communications were interrupted to give them opportunity to take with their counsel and at one time John Lind was called into the conference. The outcome of the negotiations anxiously awaited by administration chiefs. They were hopeful that the way might be cleared for the constitutionalist leader to enter the conference so that all of the elements now figuring in the southern republic's plight might be brought together to discuss terms of restoring peace. Secretary Bryan reiterated that mediation was "progressing favorably." Some suggestions were heard in official quarters that there might be delay in the mediation program as it was originally outlined. But these were coupled with declarations of belief that ultimately the entire situation would be composed, and reflections were heard here of the envoys' confident hope that Carranza would send delegates to Niagara. However, some observers of the situation took the position that he might not agree to the mediators' terms for his participation.

Assistant Secretary Roosevelt of the navy department was to take up with President Wilson and Secretary Bryan today the report from Mexico City that Huerta had ordered his minister of war to send federal gunboats to Tampico to halt shipments of arms for the constitutionalists said to be en route from New Orleans. Mr. Roosevelt has stated that no orders had been sent to American naval commanders as to treatment of the steamer Antilla said to be carrying ammunition for Carranza, when she appeared in Mexican waters. That was regarded as an answer to the query as to whether American warships would give protection to the Antilla if Huerta gunboats attempted to overhail her.

U. S. Not to Interfere. Previously, however, it had been generally understood that Rear Admiral Badger had been informed by the navy department that the Washington government desired that there be no interference with navigation at Tampico. In some quarters it was asserted that American ships could

AMBITIOUS PROGRAM FOR NEW AMERICAN UNIVERSITY LOCATED IN WASHINGTON

Two buildings of the American University. Top, McKinley college of government; bottom, college of history.

The American university, a Methodist institution just finished in Washington, has an ambitious program of usefulness, which includes: First, fellowships for graduate study; second, a director of research work for the service of students wishing to avail themselves of the resources of Washington; third, lectureships in Washington on important matters; fourth, lectureships at educational centers elsewhere under the auspices of the American university; fifth, the publication of significant volumes of lectures and theses.

not interfere with any blockade by Huerta without violation of the armistice.

Niagara Falls, Ont., June 4.—While waiting to hear from General Carranza whether he would send delegates to the conference here, the mediators planned today to continue such work as would not be affected by the constitutionalist answer. The peace plan on which the two sets of delegates have been working for two weeks has been only partially completed. Much of the work will be of value even if the constitutionalists decide to enter the negotiations. The mediation colony is absorbed, however, in the constitutionalist phase of the Mexican problem.

Word in respect to it is awaited with intense interest. The feeling is general that the attitude taken by General Carranza in his reply probably will shape the entire course of the mediation hereafter and perhaps have a direct effect on the Washington government's future policy towards the two factions in Mexico. Those who have seen the mediators' note to the constitutionalists say it is so phrased that they can find therein a dignified way of entering the negotiations, notwithstanding their previous objections.

ELECTRIC PROBLEM STILL UNSOLVED

Philadelphia, June 3.—Thomas A. Edison, who was the guest of honor at the banquet tonight of the National Electric Light association, declared that 75 per cent of the problems of electricity are still unsolved and that the one thing he would like to accomplish would be the making of electricity from coal without first generating steam. The talking machine, he said, is now practically perfect, but he would like to see the price reduced until anyone could hear grand opera at a cost of only five cents.

WOMAN KILLS TWO CHILDREN AND SELF

Long Beach, Cal., June 4.—Local authorities began an investigation today into the death of Mrs. Lena Raab, 29 years old, and her two daughters,

Lean, 6 years old, and Lillian, fifteen months old. All three were found late last night in their home with their throats cut.

Mrs. Raab left a note, written in German, in which, according to the police, she attributed her approaching motherhood to Dr. Walter B. Hill, a prominent Long Beach physician, and declared her intention of killing the children and herself.

Dr. Hill was taken into custody. He denied the charge.

NORTHERN PACIFIC LAY OFF TRAINS

Seattle, June 4.—Announcement was made today that next Sunday the Northern Pacific railroad would discontinue overland trains No. 5 and No. 6, the "Twin City Express," operated between Seattle and St. Paul, leaving only two through trains each way between the Pacific coast and the Twin Cities on that road. Light passenger traffic is given as the reason for the reduction in train service.

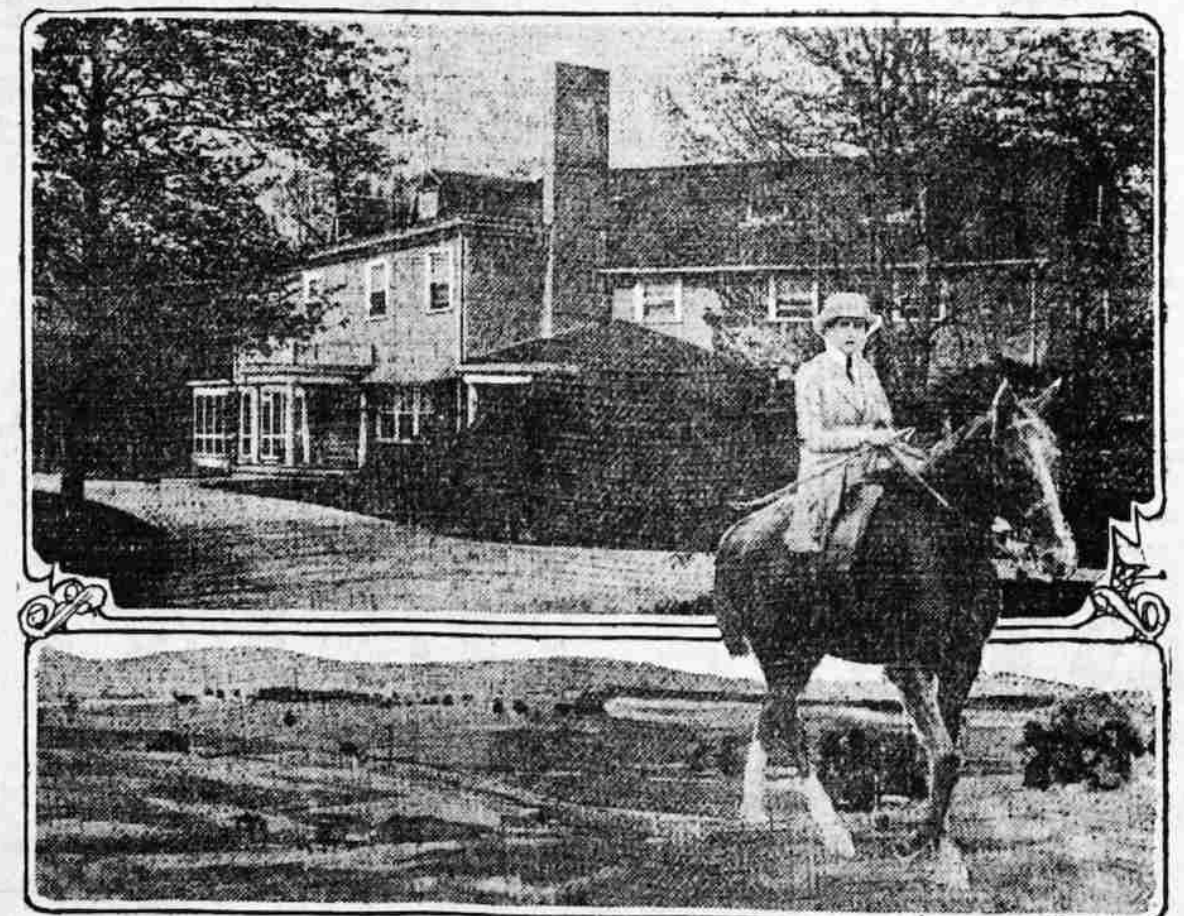

PROGRESSIVES TO PLAN CAMPAIGN

Chicago, June 4.—Plans for the Progressive party campaign in the west will be made at the anniversary rally of the party here August 3, it was announced today by Medill McCormick, national committeeman for Illinois, who said that Colonel Roosevelt would preside. The convention is intended to be a reunion of those who participated in the first national Progressive convention.

FIRE IN WIDEMAN BUILDING.
Pocatello, Idaho, June 3.—A serious fire occurred yesterday morning in the Wideman building on South Main and the millinery stock of Mrs. Grant was practically destroyed. The stock was valued at \$5000 and only \$1500 insurance was carried. The building will be refitted at once and a new front put on the store.

ADVERTISING FOR BIDS.
Bingham, Utah, June 3.—The town board will today advertise for bids on construction of the new city hall to be built here. The structure is to cost approximately \$15,000.

DOINGS OF CHICAGO HEIRESS WHO LEAVES PAPA'S LOVELY HOME FOR VIRGINIA FARM GIVE HER PROMINENT PLACE IN THE NEWS

Miss Helen Morton on one of her favorite horses; her father's home in Chicago suburb; view from Miss Morton's home at Delaplane, Va.

Miss Helen Morton, Chicago heiress and niece of the late Secretary of Navy Paul Morton, is making a good deal of readable news for the papers these days. Not long ago she slipped away from her father's beautiful home in a Chicago suburb, went to Delaplane, Va., and there bought a farm, which she is now operating. She gave out an interview the other day telling how "pop got peeved," thus furnishing her an incentive to quit home without telling her family where she was going. "Pop" intimates that he may refuse to pay the many

BRIGANDS BURN AND LOOT TOWNS

"White Wolf" and Followers Elude Chinese Troops and Start New Raids.

Peking, China, June 4.—"White Wolf," the Chinese brigand who during the last few months has devastated the provinces of Hu-Peh, Ho-Nan and Shen-Si, is now looting and burning towns and villages in the province of Kan-Su.

After eluding the great army of troops sent to capture him by the Chinese government he set fire yesterday to Ningchow, and his followers today burned Tao-Chow in the extreme south of the province, after robbing the inhabitants.

The brigands then proceeded to Chong, where they set fire to the famous monastery of the Tibetan Lamas.

Subsequently regular troops drove the bandits to the ravines of Lily Mountain, 100 miles south of Lanchow, where they are reported surrounded by troops.

SALT LAKE FIGHTING

UNION PACIFIC RAILROAD

Salt Lake, June 4.—Governor William Spry is asked to direct the attorney general to take steps to prevent the Union Pacific Railroad company from distributing its proposed \$80,000,000 extra dividend to holders of common stocks, in a letter filed in his office yesterday afternoon by the Commercial Club Traffic bureau.

Distribution of the dividend in the manner proposed would amount to a capitalization of earnings and would furnish excuse for imposition of unjust freight charges on the people of Utah. It is declared in the letter. The governor is asked to have the attorney general proceed under the charter of the company, which is incorporated in Utah, on the ground that the company has exceeded its rights as granted under the charter.

It is set out in the letter that the department of justice at Washington has advised the traffic bureau that it is without authority to stop the dividend payment and has suggested that the best method of preventing the distribution of the \$80,000,000 is by a suit in Utah, the home state of the railroad.

The allegations as to the nature of the proposed distribution are practically the same as those given by W. S. McCarthy, a member of the board of directors of the bureau, in his communications with congressmen and senators relative to the dividend and the proposed freight rate increases sought by the railroads. Copies of Mr. McCarthy's letters and replies thereto, together with newspaper clippings bearing on the much-bruited subject, are included in the letter to the governor.

Should Governor Spry see fit to direct the attorney general to proceed in the matter and the latter should find reason for instituting a restraining suit, it is understood the traffic bureau will endeavor to make the proceedings sufficiently broad to bring to light, not only the evidence concerning the cutting of the \$80,000,000 melon, as it is termed, but the whole financial system of the great railroad. A legal battle of vast importance to Utah and to the entire country would result. It is said Governor Spry received the message from the traffic bureau late yesterday afternoon, and when he closed his office for the day he had had time to merely glance over the communication and the accompanying documents.

"It is a big matter," he said, "and I will give it my attention at the earliest possible time. I can make no comments on it now because I am not acquainted with the subject matter, but whatever action I deem it my duty to take shall be instituted."

GOOD FISHING AT HEISE.
Pocatello, Idaho, June 3.—Fifteen automobiles containing over seventy Pocatelloites journeyed to Heise Hot Springs last Sunday, a distance of about seventy miles, where the baths, fishing and a general outing was enjoyed. The reports go to show that fishing is good and that the baths are very popular this year.

OFFICIAL FIGURES GIVEN.
Pocatello, Id., June 3.—The official figures of the recent power county local option election show that the county went "dry" by 72 plurality. The vote was as follows: American

A MODERN SCIENCE
Until recently it has been a generally accepted theory that eczema was a disease of the blood. Science has taught us that eczema is positively a skin disease and curable through the skin only.

TWO ESCAPES FROM DEATH.

Montpelier, Ida., June 3.—Two mishaps to little children yesterday came nearly being fatal. The first was when the little 2-year-old child of E. Williamson fell into Montpelier creek while playing along the bank. The child's 8-year-old brother happened to be near, and, with remark-

able presence of mind, jumped in and saved the little tot. Shortly afterward little 2-year-old Bernice Bergman drank half a cup of gasoline while her mother was out of the room and was revived with considerable difficulty.

SEX HYGIENE DROPPED.

Denver, June 4.—Sex hygiene will no longer be taught in the Denver public schools. The school board last night adopted a report dropping the name of the instructor in this department from the list of teachers.

STANDARD

Want Advertisers Practice the "Don't Worry" Philosophy!

With people who have learned to UTILIZE Standard classified advertising, the usual small "worries" of business and of home life do not loom at all large. If "Help" is needed, Standard want-advertising obviates worry. If tenant-loss is imminent, Standard want-advertising turns the matter into a mere incident. They act upon the theory that when a thing gets big enough to worry about it is big enough to justify some want-advertising.
